1. Executive Summary

This project delivers a comprehensive **"Value-Exchange" Email Funnel** for a **Startup Investment Firm**, designed to collect zero-party data through interactive quizzes and preference collection. With the phase-out of third-party cookies, this funnel establishes first-party data collection as the foundation for personalized marketing.

Key Deliverables:

- Complete email funnel strategy (5 stages)
- Lead magnet + landing page copy
- Welcome email + 3 follow-up emails
- 10-question investment quiz (Typeform)
- Segmentation strategy (4 segments)
- Mailchimp & HubSpot workflows
- 50 email subject lines
- Newsletter template
- KPIs and metrics framework

2. Objectives

#	Objective	Target	Status
1	Design complete email funnel strategy	5-stage funnel	Completed
2	Create lead magnet + landing page copy	Quiz-based lead magnet	Completed
3	Build welcome email sequence	Immediate delivery	Completed
4	Create 3 follow-up emails	Day 3, 5, 7	Completed
5	Design investment quiz	10 questions	Completed
6	Create Typeform setup guide	Complete configuration	Completed
7	Build segmentation strategy	4 segments	Completed
8	Create Mailchimp workflow	Full automation	Completed
9	Create HubSpot workflow	Full automation	Completed
10	Design newsletter template	Weekly format	Completed
11	Generate 50 subject lines	Categorized	Completed
12	Define KPIs and metrics	Full framework	Completed

3. Email Funnel Strategy

Funnel Architecture

Stage	Goal	Data Collected
Lead Magnet (Quiz)	Attract signups	Email, name
Interactive Quiz	Collect preferences	Risk, goals, experience
Welcome Email	Build trust	Engagement data
Follow-ups (3)	Nurture leads	Click behavior, interests
Newsletter	Retain & convert	Ongoing engagement

Why Zero-Party Data?

Data Type	Definition	Value
Zero-Party	User intentionally shares	Highest — explicit preferences
First-Party	Collected from interactions	High — behavioral insights
Third-Party	External sources	Lowest — being phased out

4. Lead Magnet & Landing Page

Lead Magnet Details

Element	Detail
Name	2026 Investment Strategy Quiz
Type	Interactive quiz (10 questions)
Value	Personalized investment recommendations
Time	3-5 minutes
Data Collected	Risk tolerance, goals, experience, preferences

Landing Page Headline

H1: What's Your 2026 Investment Style?

Subheadline: Take our free 3-minute quiz to get personalized investment recommendations based on your goals, risk tolerance, and experience.

Quiz Signup Form

Field	Type	Required
First Name	Text	Yes
Email Address	Email	Yes

CLV:CAC Ratio	>5:1

11. Resume Points

#	Resume Bullet Point	Skills
1	Designed complete "Value-Exchange" email funnel for startup investment firm collecting zero-party data	Email Marketing, Strategy
2	Created 10-question investment quiz using Typeform collecting risk tolerance, goals, and preferences	Typeform, Data Collection
3	Built 4-email onboarding sequence (welcome + 3 follow-ups) with 50%+ target open rate	Copywriting, Automation
4	Implemented segmentation strategy with 3 risk-based profiles for personalized email content	Segmentation, Personalization
5	Configured Mailchimp and HubSpot automation workflows with conditional logic and lead scoring	Mailchimp, HubSpot
6	Created newsletter template for weekly market updates and investment insights	Content Strategy, Design
7	Defined KPI framework tracking quiz completion, open rates, CTR, and conversion metrics	Analytics, Measurement
8	Developed privacy-compliant data collection strategy aligned with GDPR/CCPA requirements	Compliance, Privacy

12. Interview Questions & Answers

#	Question	Answer
1	What is zero-party data?	Data that customers intentionally and proactively share with a brand. It's explicit, self-reported information like preferences, interests, and intentions. Highest value because it's accurate and consent-based.
2	Why is zero-party data important?	With third-party cookies being phased out, brands need first-party and zero-party data. It's more accurate, GDPR/CCPA compliant, and enables better personalization.
3	How do you collect zero-party data?	Through interactive quizzes, surveys, preference centers, polls, and direct questions. The key is providing value in exchange for the data (value exchange).
4	What is a value exchange?	Providing something valuable (guide, recommendations, insights) in return for customer data. Both parties benefit: customer gets value, brand gets data.
5	How do you segment email lists?	By demographics, behavior, preferences, engagement level, and lifecycle stage. For investment: risk tolerance, goals, experience, timeline.
6	What tools do you use for email marketing?	Mailchimp or HubSpot for automation, Typeform for quizzes, Google Analytics for tracking, CRM for lead management.
7	How do you measure email marketing success?	Open rate, click-through rate, conversion rate, revenue attribution, unsubscribe rate, and customer lifetime value.
8	What makes a good email sequence?	Clear value proposition, personalization, progressive engagement, strong CTAs, mobile optimization, and testing/optimization.

Digital Marketing Internship Report — Task 4: Finance Zero-Party Data Collection
