

Short-Form Video Marketing Strategy

Mobile Game Launch — Entertainment Industry

YouTube Shorts

Instagram Reels

CapCut

Pictory

Analytics

Executive Summary

This document outlines a comprehensive viral marketing strategy for launching a mobile game using short-form video content. The plan leverages AI-powered video tools (CapCut, Pictory) to efficiently produce high-volume, platform-optimized content across YouTube Shorts and Instagram Reels.

Project Objectives

Objective	Target	KPI
Pre-Launch Awareness	5M impressions	Total views across platforms
Launch Day Downloads	100K+ downloads	App Store / Play Store data
Engagement Rate	8%+ average	Likes + Comments / Views
Content Volume	50+ shorts in 12 weeks	Content calendar tracking
Cost Efficiency	<\$0.02 cost per view	Ad spend / Total views
Viral Coefficient	> 1.5 shares per view	Shares / Views

Core KPI Dashboard

5M+

Total Views

>70%

Watch-Through Rate

>8%

Engagement Rate

>4%

Click-Through Rate

Platform Comparison

Feature	YouTube Shorts	Instagram Reels	TikTok
Max Length	60s	90s	10min
Best Length	15-30s	15-30s	15-30s
Aspect Ratio	9:16	9:16	9:16
Primary Audience	18-34	18-34	16-24
Link in Bio	Yes	Yes	Yes

5 Ad Scripts Overview

Script 1: The Hook – "Wait For It..."

Timestamp	Visual	Duration
0:00-0:02	Black screen → Glitch effect	2s
0:02-0:05	Quick gameplay montage	3s
0:05-0:08	Character reveal (slow-mo)	3s

0:08-0:12	Epic gameplay moment	4s
0:12-0:15	Logo reveal + CTA	3s

Script 2: The Challenge – "Can You Beat This?"

Timestamp	Visual	Duration
0:00-0:02	Player fails spectacularly	2s
0:02-0:05	"Challenge" text animation	3s
0:05-0:15	Gameplay showing the challenge	10s
0:15-0:20	Success moment	5s
0:20-0:25	Hashtag overlay + CTA	5s

Script 3: The Reaction – "I Can't Believe This Game"

Timestamp	Visual	Duration
0:00-0:03	Face-cam: shocked expression	3s
0:03-0:08	Screen recording: epic moment	5s
0:08-0:15	Gameplay highlight reel	7s
0:15-0:20	Reaction to win/loss	5s
0:20-0:25	CTA with download link	5s

Script 4: The Tutorial – "3 Tips Nobody Tells You"

Timestamp	Visual	Duration
0:00-0:03	Text animation: "3 Tips"	3s
0:03-0:12	Tip 1: Gameplay demonstration	9s
0:12-0:21	Tip 2: Gameplay demonstration	9s
0:21-0:30	Tip 3: Gameplay demonstration	9s
0:30-0:35	Recap + CTA	5s

Script 5: The Countdown – "Launch Day Is Here"

Timestamp	Visual	Duration
0:00-0:02	Glitch text: "TODAY"	2s
0:02-0:05	Fast gameplay cuts	3s
0:05-0:10	Feature showcase montage	5s
0:10-0:15	Countdown timer (3, 2, 1)	5s
0:15-0:20	Logo + QR code + CTA	5s

AI Video Tool Workflow

CapCut Workflow

Step	Action	Output
------	--------	--------

1	Import raw footage	Project file
2	Auto-generate captions	SRT file
3	Apply trending templates	Styled video
4	Add effects/transitions	Polished clip
5	Export 9:16 format	Platform-ready

Pictory Workflow

Step	Action	Output
1	Upload long-form video	AI analyzes content
2	Select highlight moments	Clip suggestions
3	Add AI voiceover (optional)	Narrated clip
4	Auto-generate captions	Styled captions
5	Brand kit application	Consistent branding
6	Batch export	Multiple clips

Podcast Repurposing Pipeline

Content Ratio

Source Length	Clips Generated	Avg Clip Length	Total Output
1-hour podcast	8-12 clips	20-45 seconds	3-5 min content
30-min stream	5-8 clips	15-30 seconds	2-3 min content
10-min highlight	2-3 clips	15-60 seconds	1-2 min content

Content Calendar (12 Weeks)

Week	Phase	Content Focus	Volume
1-2	Teaser	Mystery, curiosity	8 shorts
3-4	Reveal	Game features, gameplay	10 shorts
5-6	Hype	Influencer collabs, UGC	10 shorts
7-8	Launch	Countdown, launch day	12 shorts
9-10	Post-Launch	Reactions, tips, community	10 shorts
11-12	Sustain	Memes, updates, events	8 shorts

Budget Allocation

Category	% Budget	Purpose
Paid Ads	40%	YouTube Shorts ads, Instagram Reels ads
Influencer Collabs	25%	Gaming influencers, micro-influencers
Content Production	20%	CapCut Pro, Pictory subscription
Tools & Analytics	10%	Scheduling, analytics, A/B testing

Contingency	5%	Unexpected opportunities
-------------	----	--------------------------

Optimization Framework

Metric	Poor	Average	Good	Excellent
Watch-through	<50%	50-65%	65-80%	>80%
Engagement	<3%	3-6%	6-10%	>10%
CTR	<2%	2-4%	4-7%	>7%
Conversion	<5%	5-10%	10-20%	>20%

Key Takeaways

Pro Tip:

Hook viewers in the first 0.5 seconds. The algorithm rewards watch time and shares — focus on content people want to rewatch.

- ✓ Use the 5-pillar content model for balanced output
- ✓ CapCut auto-captions save 60% editing time
- ✓ Pictory turns 1-hour podcast into 8-12 clips in 30 minutes
- ✓ Optimize for watch-through rate first, then engagement
- ✓ A/B test hooks, CTAs, and durations weekly
- ✓ Track attribution with UTM parameters across all platforms

Resume Points

- ✓ Developed viral marketing strategy achieving 5M+ impressions

- ✓ Created 5 platform-optimized ad scripts for Shorts and Reels
- ✓ Implemented AI-powered video repurposing pipeline
- ✓ Reduced content production time by 60% through automation
- ✓ Designed podcast-to-short-form conversion system
- ✓ Established analytics-driven optimization framework

Interview Q&A

Q: How do you make short-form content go viral?

Hook viewers in first 0.5 seconds, use trending audio, create emotional peaks, and include a clear CTA. The algorithm rewards watch time and shares.

Q: What makes CapCut better than other editing tools?

CapCut offers free auto-captions, trending templates, and one-click 9:16 formatting. The AI features save hours of manual editing.

Q: How do you measure success for short-form video?

Primary metrics: watch-through rate (>70%), share rate (>2%), and save rate (>1%). For game launches, also track install attribution and CPA.

Q: How do you repurpose long-form content efficiently?

Use Pictory's AI to auto-detect highlight moments, then CapCut for captioning and branding. A 1-hour podcast becomes 8-12 clips in under 30 minutes.
